

Hydroponic Solutions for Urban Food Production

Hydroponics a growing alternative to produce high quality and profitable specialty crops such as herbs, greens and cut flowers in places that are not suitable for cultivation. Hydroponic technologies also have the advantage of increasing production per square foot in comparison with traditional agriculture.

Join us on **Tuesday September 4 at 5:30pm** to learn about hydroponic growing techniques, including a demonstration and displays.

Conference Center
UF/IFAS Extension, Hillsborough County
5339 County Rd. 579, Seffner, FL 33584-3334
